CCS concepts and XML Code

Please add the CCS Concepts to the first page of final paper below the abstract (please refer to the ACM template), and directly attach the XML Code in the email to me. They are very important because they are related to the publication of your paper.

Please carefully proofread the format of your final paper based on above two needed information. Please note that both doc. (must) and pdf. version of the paper are needed to return to the csai@young.ac.cn.

In addition, about one week prior to the conference, an email from rightsreview@acm.org will be contacting you to complete the Copyright, please make sure that you and your authors set email SPAM settings to allow emails from rightsreview@acm.org.

1. How to produce CCS Concepts and XML Code?

➢ For CCS Concepts and XML Code, you may visit the following link and choose the more suitable classification of your paper and then assign your paper CCS concepts (Please note: CCS Concepts means the theme of your paper). After that, you may click view CCS TeX Code and choose show the XML only; you will get the XML Code. (Don’t worry, please refer to the following pictures of instructions.)

➢ Link: http://dl.acm.org/ccs/ccs.cfm?id=0&lid=0&CFID=689867085&CFTOKEN=32340563

➢ The final result, please see the following as an example:

   CCS Concepts: Information systems → Information systems applications → Mobile information processing systems

   XML Code:

   <ccs2012>

   <concept>

   <concept_id>10002951.10003227.10003245</concept_id>

   <concept_desc>Information systems~Mobile information processing systems</concept_desc>

   <concept_significance>500</concept_significance>

   </concept>

   </ccs2012>
2. Pictures of instructions.

1) Click to choose the more suitable classification of your paper.

2) Get your CCS Concepts.

3) Click the “Assign This CCS Concept”.
4) Choose the relevance of this classification

5) Click the “view CCS TeX Code”.

6) Choose the “show the XML only”.

7) Get the XML Code.
